PROJECTS

FADAKCARE

Mobile & Web

FadakCare is an intelligent health screening platform that assesses patients' cardiovascular risk using a specialized questionnaire. It provides a personalized risk score and enables doctors to ensure rapid follow-up, offer tailored medical advice, and conduct teleconsultations.

CAPITAL ANALYSIS

Web

A modern and responsive corporate website designed for Capital Analysis. It optimizes the company's brand image, service presentation, and user experience, featuring a secure contact portal and enhanced performance.

CAPITALPETROLEUM

Web

A gas station management platform allowing managers to record sales and stock movements. Administrators can oversee all depots and generate detailed reports, with specific permissions adapted to each user role.

COLLECTION

Web

A web application designed for African tailoring workshops, allowing managers to easily handle client databases, order processing, and workflow tracking.

ABS

Mobile

A multimedia mobile application for sharing announcements, videos, and podcasts, integrated with Firebase authentication and secure content management.
